Project Details

Project Scope

Projects must fall into one of these activities,

Please select yes / no for each activity, you may only select one 'yes' for your main area of interest.

Note: Eligible activities do not include general consultancy, design, installation or commissioning, or project implementation.

Energy audits by companies already required to carry out an energy audit under the Energy Efficiency Directive are not eligible.

Resource Efficiency Assessment

Identify resource, emissions and cost savings opportunities.

- Resources to include energy, water, and raw materials. Examples of energy include energy use for heating, lighting, operating equipment, refrigeration, transport.

- Opportunities include capital projects, feasibility studies, procedural changes, process changes, awareness initiatives, management initiatives and staff training.

Provide information on cost & payback of opportunities identified.

Renewable Energy Potential

Assess your business and site(s) energy usage and recommend the most appropriate renewable energy system(s) for the business. All renewable energy technologies can be considered, including solar panels, heat pumps, biomass boilers, combined heat and power plants.

Provide information on cost & payback of opportunities identified.

Introduction to Corporate Sustainability

Develop an action plan to implement a corporate sustainability/decarbonisation strategy, policy and plan.

Introduction to Circular Economy thinking

Understand the relevance of circular economy and innovation to your business

Prepare a plan to identify and develop circular economy ideas for a more circular product, process or service. This means looking beyond the current take-make-waste linear economic model to a circular model that minimises waste and pollution by design, keeping products and materials in use and regenerates natural systems.

Carry out a circular gap assessment or carry out a packaging review.

Project Details

Please provide project details of the project that you are seeking a voucher support for.*

You must include a breakdown of activities to be undertaken and the expected outcomes

Name and Role of person within company who will lead this project**Service Provider Company Name:**

Resource Details

Resource Details ¹

Supply your Resource Details as given in this application form, copies of your last four electricity and water bills and copies of any previous resource efficiency audit reports/work to date, to your chosen service provider prior to their visit/commencing the project.

Electricity

What is your average electricity use per annum (kWh)?	
What is your average electricity cost per annum (euro)?	
Do you know what electricity tariff you are on?	
Do you analyse bills for appropriate MIC ² setting and wattless charges ³ ?	
Do you have any sub-meters for electricity?	
In your opinion what is the greatest user of electricity on site?	

Water

What is your average water use per annum (Litres)?	
What is your average water cost per annum (euro)?	
Is it all public water mains supply or do you have other supplies?	
Do you have any sub meters on site?	
Do you read your water meter(s) regularly?	
In your opinion where is the greatest user of water on site?	
Do you have a steam and/or hot water boiler?	
If yes, what is hot water/steam used for?	

Waste

What waste streams are you generating on site?	Hazardous	
	Non-Hazardous	
How is this waste disposed of?	Landfill	
	Incineration	
	Recycled	
	Composting	
	Anaerobic Digestion	
	Other (Please Specify)	
What are your waste disposal costs per annum (euro)?		

Fuel

Give details of each fuel used, i.e. quantity & cost per annum.

	Quantity Per Annum	€ Per Annum
Natural gas: (kWh)	0	0
LPG: (Litres)	0	0
Heating Oil: (Litres)	0	0
Heavy Fuel Oil: (Litres)	0	0
Coal: (Tonnes)	0	0
Other: (please specify name)		
Other: (please specify units)		
Other: (Quantity and Cost per annum)	0	0
Does your company operate a transport fleet?		
What are your fleet fuel transport costs per annum?	0	
If transport is contracted out, what are these costs per annum?	0	

Business Flights

Estimate flights either based on previous (pre-pandemic) patterns or else estimate based on what you think the numbers of business flights are likely to be after the pandemic

No. of EU & UK flights per annum	0
No. of flights outside EU & UK per annum	0

Footnotes

. ¹ You may find your electricity, water and fuel usage information through utility bills, meter readings or automatic meter readings. Electricity and Natural Gas usage is measured in kilowatt-hours (kWhs) - each kWh you use is called a unit and the amount of units you've used in the billing period is shown as 'consumption' or 'usage' on your bill.

. ² Maximum Import Capacity (MIC) is the maximum electrical load that you have agreed with your supplier. The lower the MIC is the less it costs but if it is exceeded there are hefty fines.

. ³ Wattless charges or Low Power Factor (LPF) is applied if your site is consuming too much reactive power, i.e. your machinery is operating inefficiently.

Gender Balance

Gender Balance	
As set out in Enterprise Ireland's Women in Business Strategy, enhancing gender balance in Senior Leadership Teams and decision making roles can help Irish companies to build strong leadership, attract talent and improve performance. ¹	
Including the CEO, how many people are on your senior leadership team ² ?	
How many of the above identify as women?	
How many directors are on your board?	
(Please only include directors that are actively involved i.e. those who participate in board meetings, have knowledge / oversight of the day-to-day activities of the business etc. Sole traders please insert N/A.)	
How many of the above identify as women?	
Does your company have a documented Diversity & Inclusion Strategy?	

Notes:

- . ¹ The EI Strategy for Women in Business can be accessed [here](#)
- . ² The senior leadership team is defined as the group of individuals at the highest level of management, who set the company's goals and run it day-to-day; it's generally referred to as the "C-Suite". It includes the CEO and the CEO's direct reports."

Voucher Declaration

An authorised Officer of the Company should complete this Declaration

Please confirm that;

De Minimis Aid

Please confirm that the amount of this Climate Action Voucher will not result in your company exceeding the De Minimis Aid regulations limit of €200,000 received within the past three years.

Notes: De Minimis Aid is small amounts of State Aid given to an enterprise which cannot exceed €200,000 over any three fiscal years to any company irrespective of size or location.

De Minimis Aid can come from any State body, agency or department. If a Company is part of a group then the €200,000 limit applies to the group.

For more information see [link](#)

A false declaration resulting in the threshold of €200,000 being exceeded could result in aid being recovered.
